

Dear Parents,

Did you know that teachers' access to and use of hands-on learning resources in the classroom is the single most important teacher input factor toward student success?

Did you know that teachers spend an average of \$1,200 of their *own* money each year purchasing resources and materials for the classroom?

Information was sent home in October about Adopt-A-Classroom. The program enables individuals like you to help teachers succeed in the classroom. We have 3 classrooms that have been adopted to date. Our goal is reach each and every classroom in our school with this program. Here are some important facts about the program:

- 100% of the donation is provided to the teacher in an online account.
- Adopt-A-Classroom takes \$0 for administration.
- All donations are tax-deductible.
- No donation is too small. Any amount helps.
- You receive Impact Reports that show exactly how the teacher spends the money, so it's fully accountable and transparent.
- You receive direct feedback from the teacher so you can experience first hand the impact you have made.

You can learn more about the Adopt-A-Classroom program by visiting its website at [www.adoptaclassroom.org](http://www.adoptaclassroom.org).

This is a great opportunity to get involved. As we all know, children learn best when the community works together toward helping students reach their highest potential.

Sincerely,

*Jeannine DeFalco*
