Reading and Math

I've enjoyed working with your children this year. I've seen so much growth!

Encourage them to read books this summer. Remind them that they can go on many adventures and learn about people, places, and things just by reading a book.

Play math games and look for opportunities to reinforce math skills; i.e. counting change at the grocery store; telling time; counting everyday items; sorting objects; measuring ingredients for a favorite recipe; etc.

Have a safe and happy summer.

See you in September!
