

Personal Biography: Mrs. T. Kwasnik

I graduated from DeSales University in January, 2006 with a BA; Elementary Education.

I have worked various positions in the field of education for 11 years, including 2-1/2 years in Basic Skills.

Through *all* of my experiences, I have worked in every facet of education from Special Education through Gifted Programs.

I am the mother of two children. Through them, I have learned to be patient, to avoid judgment, to be persistent, and to follow your dreams. I look at life as a journey where we should strive to learn new things all the time. I believe that we need to make a "good" out of every situation and only to look back if we are going to reflect on our blessings or learn from our mistakes.

I enjoy working with children and families. I love reading, animals, nature, and the ocean. I have three dogs and countless fish!

One Hundred Years from Now

Author Unknown

*One hundred years from now
It will not matter
What kind of car I drove
What kind of house I lived in
How much money I had in the bank
Nor what my clothes looked like
BUT
The world may be a little better
Because, I was important
In the life of a child.*

I have always liked this poem. I realize that my students may not always remember me; but, hopefully, they will use what I taught them. I feel honored in knowing that I was able to take part in helping them to grow. I am passionate about my job and my goal is to meet our children where they are and challenge them to do their very best.
