## **THE JUST SAY NO CLUB NEEDS YOUR HELP!**

**Helping Hands to Give Hope for The Hospital's Children**

The Just Say No Club will be collecting new board books AND puzzles for the whole month of March. We would like to ask families to continue with the season of giving and donate, if you can, **new** board books, picture books, early readers, and puzzles. These books will be collected and donated to Lehigh Valley Hospital's Pediatric Unit! All books can be brought in starting Monday, March 2nd. In addition, if you would like to "lend a helping hand" and are unable to donate a book, please consider donating a \$1 which will go towards purchasing additional books for the hospital. It is **VERY** important that all books and puzzles brought to school be **NEW** because they will be going directly to the hospital! Students who donate will be given a "hand" that will be hung around the school, which will show they donated to our book collection!!!

Thank you so much in advance for all of your help!

Sincerely,

The Just Say NO Club

# They grow up so fast.

Now's your chance to shape their future.

**A kindergartener counted in the 2020 Census this spring will be starting high school when the next census comes around in 2030: That's 10 years of school supplies, teachers, school lunches, and so much more. This is your opportunity to help ensure they have a bright future.**

Right now, students across the country are getting an introduction to the 2020 Census through the Statistics in Schools program. This program offers free activities and resources to schools to help prepare their students for an increasingly data-driven world.

Students are learning that the 2020 Census is a count of every person who lives in the United States and its territories. Responding to the census helps your community get its fair share of funding. Census data guides how more than \$675 billion in federal funding is distributed to states and communities each year for schools, health care facilities, roads, transportation, recreation centers, social services, and more.

**You have the power to shape your future, and the future of all children, by counting everyone in your home in the 2020 Census.**

Learn more about how you can shape your future at [2020CENSUS.GOV](https://2020census.gov).

Get more information about the Statistics in Schools program at [CENSUS.GOV/SCHOOLS](https://census.gov/schools).

**Students are also learning these key things about the 2020 Census—and we want you to know them too:**

- Starting in March 2020, everyone living in your home needs to be counted. That includes children and newborn babies, citizens and noncitizens, relatives and nonrelatives, and even those staying with you temporarily.
- It's easier than ever to respond to the census. You can respond in 13 different languages, and you can complete it online, by phone, or by mail.
- Your responses to the census are safe and secure. The law requires the U.S. Census Bureau to keep your information confidential, and your responses cannot be used against you in any way.

# STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

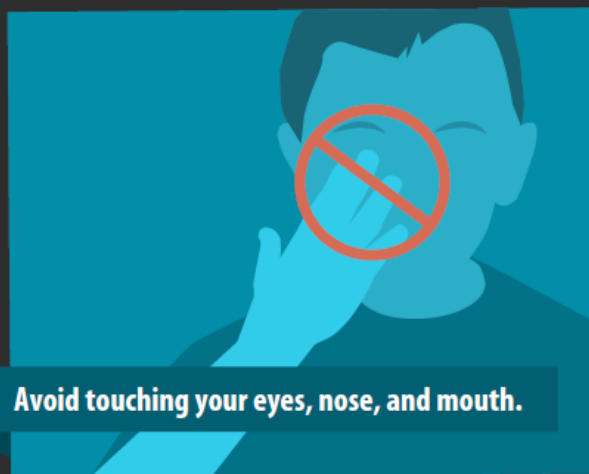

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.
